

POLICY # 4-1021-2
Approved by Executive Committee_8/6/21
Approved by State Board of Directors_10/2/21

BCHC DUES POLICY

Each year the Executive Committee will conduct a review of the BCHC budget for the upcoming year, both the projected and actual figures. If it becomes apparent that some measures must be taken to ensure the solvency of BCHC; the Executive Committee may recommend a dues increase as needed and will propose the same to the BOD at the next bi-annual meeting. The Executive Committee will be required to define the amount of the increase and recommend to the BOD when the increase should go into effect. If the State Board of Directors agrees to the increase they will be required to define when the dues increase goes into effect and the amount of increase if different from the Executive Committee recommendation.
